**WALK** on loose rein. Horse stretching down fully relaxed with low contact

**TROT** A two beat diagonal pace with regular rhythm

**LENGTHENED TROT** Stride lengthened maintaining rhythm

**CANTER** A three beat pace with regular rhythm. No running

**LENGTHENED CANTER** Lengthen stride through riders seat

**HAND GALLOP** Riders seat out of saddle

**GALLOP** Maximum speed in accordance with conditions, with total control. The pace becoming a four beat as the diagonals split

**HALT** Coming down through transitions. Not abrupt but obedient

**STOP** An immediate cessation of forward movement where a horse will elevate slightly in front prior to engaging hindquarters to come to a controlled yet complete stop in short distance

**REIN BACK** Two time diagonal movement, even rhythm for required number of steps

**SIMPLE CHANGE WALK THROUGH** Through the walk, horse obtains true flat walk. Calm smooth and straight to upward transition

**SIMPLE CHANGE** Through the trot, canter down to trot for two or three well defined trot steps

**FLYING CHANGE** Change of leads at canter in a single stride in the air, calmly, smooth and straight, in both front and hind legs

**CIRCLES** A horse must bend its body and flex its neck to follow the line of the circle, i.e. look where it is going and be balanced

**ROLL BACK** The horse comes to a complete stop engaging both hind legs, only then does the horse turn 180 degree over its hocks, moving out on the same line as it entered

**HAUNCH TURN** Are turns in motion where the energy of the horse is not stopped but is redirected in the opposite direction. The horse commences to turn before it ceases forward motion taking most of the weight on the inside hind leg which becomes the pivot point for the body while the other legs propel the horse with forward impulsion in the intended direction.

**SPIN** A movement of 360 degrees or more with the inside hind foot pivoting on the same spot

**WORKING** Horse should show athletic ability, with obedient attitude towards accurate pattern execution. The horse should be light on his feet, correct in his paces and no resistance to the bit. All gallop work asked must be executed (subject to ground conditions)

**HACK** Should be obedient and accurate, showing good quality of type and presentation. Have 4 correct paces

**ALL** Horses should be worked around the ring and be seen to perform in both directions by the Judge prior to final selection

## Variation of Non Executed Movements

**JIG JOGGING** Horse above bit and not relaxed

**TROT** should be balanced with horse tracking straight, not on 2 tracks or short in rhythm with running steps

**LENGTH OF TROT** Horse increasing the speed of trot, or shortening step to running

**THE CANTER** Should not be on the forehand, four beating or running

**GALLOP** Insufficient increase of pace thus not achieving four beat. Not maintaining sufficient control

**HALT** Being too abrupt and not coming smoothly through all transitions

**STOP** Resistance and horse refusal of any kind or stopping on front legs. Horse lifting front legs off ground

**REIN BACK** Resistance against the bit, hurried or not straight

**BIT ACCEPTANCE** Horse should not refuse to be ridden into compliant contact. Tongue should not be over the bit or behind the bit

**HEAD CARRIAGE** Should not be above bit, being adversely forward of the vertical NOR jammed in behind vertical.

**LEAD CHANGES** not executed on a straight line axis. Hurried and thrown through transition.

**CANTER LEAD ERROR**– Wrong lead, Disunited cross – firing, Cow like travel – No canter.

**CIRCLES** incorrect bend i.e. dropping shoulder horse not flexed i.e. looking out of circle therefore circle cannot round

**ROLL BACK** No completed stop

**HAUNCH TURN** Loss of momentum into or out of movement

**SPIN** Horse on front legs, inside hind leg not holding position

**PATTERN ACCURACY** Rider not familiar with pattern. Failure to ride to markers, results in loss of points, as this displays cheating, lack of rider control, horse over anticipation. Each movement and pattern must be ridden to the stated shape, size and pace as defined in Handbook

**TAIL TURN** All turns to be directed towards the Judge

**FALL** A fall of horse or rider during a workout will result in disqualification

The **HOOVES** hard and in proportion to the size of the horse with a wide heel and feet straight.

Preferred heights between 14 and 16 hands.

## **LED**

Horses in Led ASH classes are assessed on their type (the Standard of Excellence), conformation, movement, temperament and presentation.

The horse should show the qualities and type that define the breed (the Standard of Excellence).

The horse's body should be balanced in accordance with the size of the horse, and it should possess a calm temperament and a good nature.

The objectives of Led ASH classes are to provide opportunities for Members who currently own or breed Australian Stock Horses, to compare their horse's type, conformation, temperament and movement, as well as good horsemanship and showmanship skills.

The aim of Led ASH classes is to promote the Breed through striving to uphold and maintain the Standard of Excellence, which each horse should be assessed against.

The Led Scoring System has been adopted to give a breakdown of points allocated for a total score out of 100.

The Scoring System can be used in any Led class, but it is most important that it be used in Futurity and Challenge events including a Led section.

## **HACK**

Hack classes are for ridden horses. A hack must have abundant presence and quality and be well-schooled.

It is the horse, not the rider, that is judged in Hack classes, and it is assessed on type, conformation, movement, temperament and responsiveness to the rider.

The Judge looks for a calm, supple and obedient horse that moves freely forward in all paces.

Hacks should be fluent and flowing in their movement.

In Hack classes, the Judge will be looking for a horse which is forward-moving, balanced and rhythmic in all its paces.

It must be well-conformed and present an overall picture of balance and quality.

## **WORKING**

Working classes represent the high level of agility, responsiveness and control that is required to work cattle.

The execution of a Working pattern shows the ability of a horse to manoeuvre at all paces, with control and obedience. The horse is also judged on type and conformation.

The horse should move with purpose through all paces and give the impression of “going to work,” a working Stock Horse.

The horse should be light on its feet, well balanced and responsive, with no resistance to the bit, no anticipation or disobedience.

All fast work asked for must be executed in a fast manner (subject to ground conditions).

### Pattern Description for Judges & Competitors

RP1 is designed to show the basic training required for an Australian Stock Horse to start its working/ performance career.

The horse should be obedient to all commands and should be ridden on a light rein throughout the pattern to show a free flowing/ work-like movement through all the paces.

The desire is to see a relaxed, well-mannered young horse in the infancy of its training.

## **TIME TRIAL**

Time Trials are a test of the horse's ability and tractability. They were originally designed as a competition in times of cattle shortage. Today, they are accepted as a test of a horse in another discipline, as part of a Challenge event, or as an event in its own right.

The objects that are encountered in Time Trials should reflect only those types of obstacles that may be encountered in the bush or on a working station.

The Time Trial is designed with walk and trot sections and there are penalties for each broken stride.

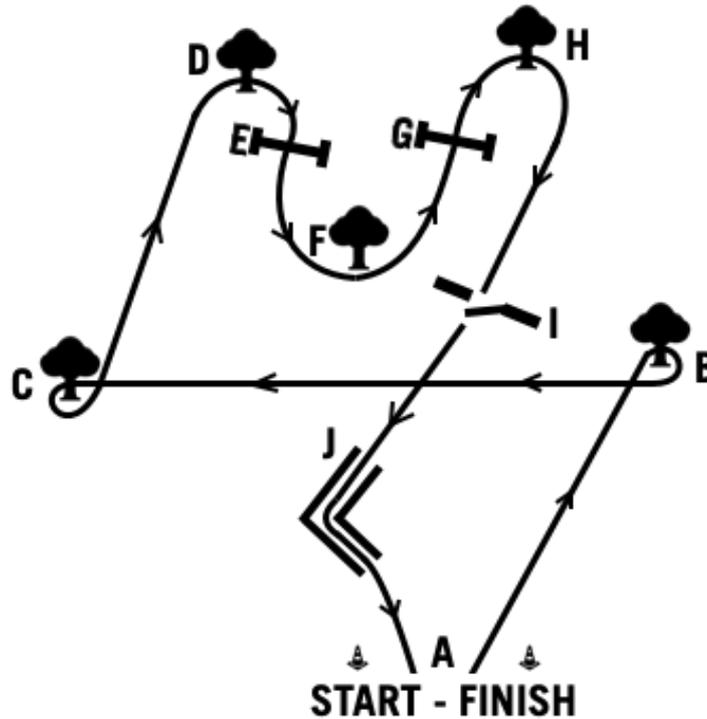

These sections ensure that the horse has a cool frame of mind.
